DETAILED ACTION

Election/Restrictions

1. Claim 80 remains withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in the reply filed on 06 November 2003.

2. Newly submitted claims 105-107 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

a. Claims 75, 76, 102, and 106 are drawn to isolated polynucleotide, classified in class 536, subclass 23.1; and claims 77 and 78, drawn to an isolated cell, classified in class 435, subclass 270.

b. Claims 105-107 are drawn to a composition, classified in class 435, subclass 6.

3. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 105-107 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Terminal Disclaimer
